Heart Rate	≤40		41 - 50	51 - 90	91 - 110	111 - 130	≥131
Level of Consciousness				A			V, P, or U

What NEWS means for your patient:

your guide to NEWS for **normally well patients**

Concern about a patient should lead to escalation, regardless of the score.

Think sepsis. Time = life.

Does the patient look ill? Are they triggering an early warning score? Are there signs of infection? Chemotherapy in last 6 weeks? This could be sepsis. **Check for red flags.**
