# Open Prescribing

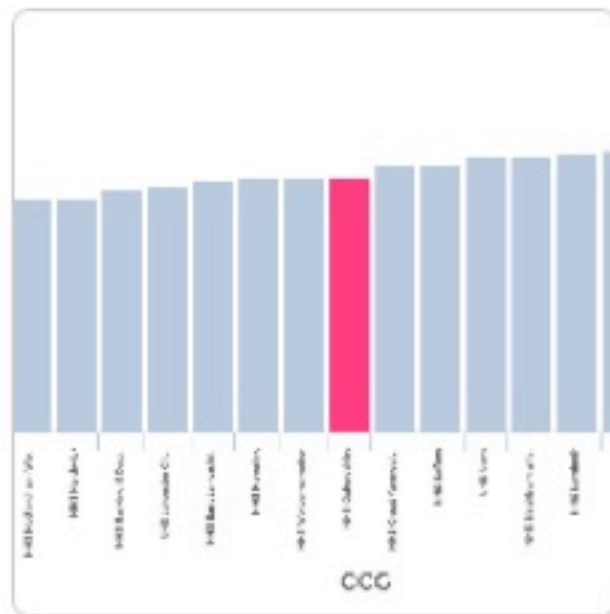

This site is in beta. Things may break at any time!

## Explore GP prescribing data

Every month the NHS publishes **anonymised open data** about the drugs prescribed by GPs in England. But the raw data files are large and unwieldy. We're making it easier for CCGs, GPs and everyone to use - helping prescribers spot trends, savings and safety improvements.

### For CCGs

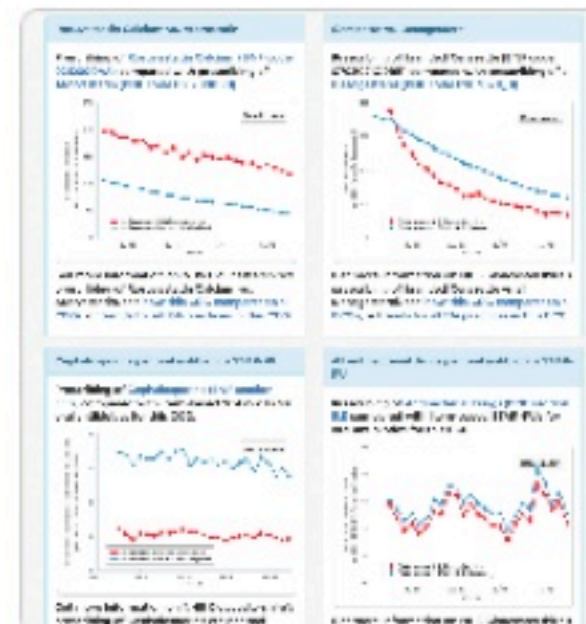

#### Compare yourself with other CCGs

Use our flexible query form to **compare a CCG visually** with other CCGs. Or see how **all your practices compare** to other CCGs.

[Get started »](#)

#### Quick overview

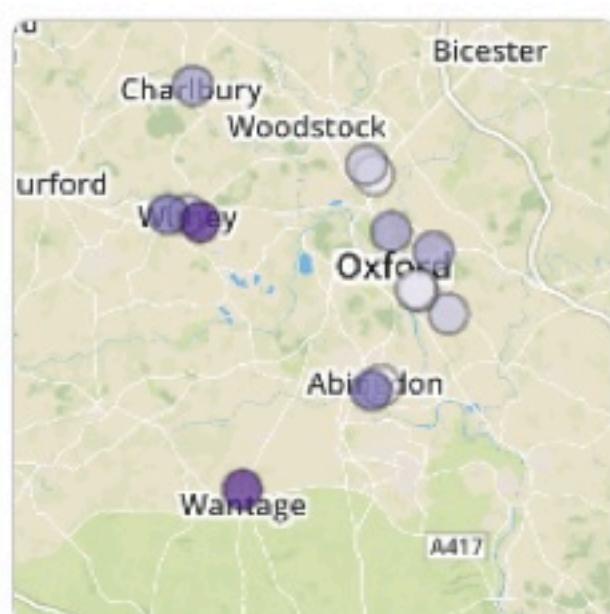

*Get a quick overview of how you're doing on six major prescribing indicators, compared to the national mean.*

[Find a CCG »](#)

### For GPs

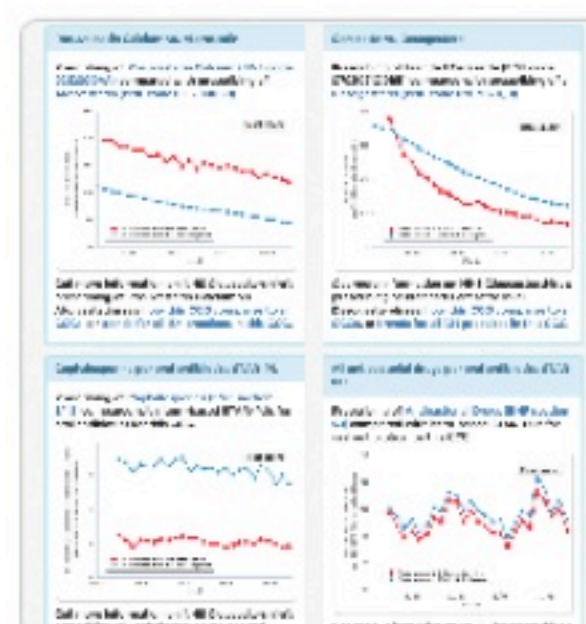

#### Compare your practice with others

Use our flexible query form to **compare a practice visually** within a CCG. Or compare yourself with practices elsewhere.
