

West of England Learning Disabilities Collaborative Workshop Summary – 24 October 2019

After a day of talks, meeting people and a fantastic play by The Mifits theatre company, people broke into regional groups to plan how they will turn ideas into action. The three groups were:

- BNSSG (Bristol, North Somerset and South Gloucestershire)
- BSW (Bath and North East Somerset, Swindon and Wiltshire)
- Gloucestershire

Using tools such as the Institute for Healthcare Improvement's 'Capsule Exercise', people were supported to unblock barriers and find solutions to the Collaborative's three priorities:

- NEWS2 and soft-signs
- Annual Health Checks
- Flu

At the end of the workshop, everyone had the opportunity to formulate a plan for what they personally will do next to support the three priorities. We have turned these plans into a word cloud...

People are busy working on:

Slides from the event can be found [here](#). The workshop presentation can be found [here](#). To find out more about the West of England Learning Disabilities Collaborative, and watch a video about the event on the 24th October, click [here](#).
