

Managing Deterioration

Managing Deterioration Safety Improvement Programme (ManDetSIP)

Key National Programme Ambitions:

1. Support the spread and adoption of the COVID-19 Oximetry@home remote monitoring model across England by March 2021.
2. Support the spread and adoption of the acute Paediatric Early Warning Score (PEWS) and system-wide paediatric observations tracker for children across all appropriate care settings in England by March 2024.
3. Support an increase in the spread and adoption of deterioration management tools (e.g. NEWS2, RESTORE2, RESTORE2mini, SBARD etc.), reliable personalised care and support planning (PCSP), and approaches encompassing end of life care principles, to support Learning Disabilities, Mental Health and Dementia care management in relation to deterioration in at least 80% of all appropriate non-acute settings across health and social care by March 2024.
